Why yes, Jennifer, I believe this passage does touch a chord in memory. I would have to look at the documents in the record on which this paragraph in the ASAOC is based to speak with absolute certainty, but as I recall, both the reference to a specific period (i.e., 1973-1976) and the reference to drummed liquid wastes sent to the SD Site, including a list of hazardous substances sent (e.g., Stoddard solvents) come from a single document, a letter from Hobart to the County indicating what they had sent to the dump.

Thanks, Tom

Tom,

I have a question for you related to the 2006 AOC for the South Dayton Dump - specifically, page 6 (attached here). We are wondering about the source of the first line that is highlighted from paragraph 15:

"Known hazardous substances were disposed at the Site between June 1973 and July 1976, including drums containing hazardous waste from nearby facilities."

Do you know the source of that statement? Please let me know if it would be easier for me to call and I will call you after you've had a chance to review.

Thank you,
 Jen
